Education

University of Birmingham (UoB) Birmingham, UK

Ph.D. in School of Engineering 2016–2021

- Thesis title: "Computer Analysis of Children's Non-Native English Speech for Language Learning and Assessment".
- Supervisors: Prof. Martin Russell, Dr Peter Jančovič.

University of Science and Technology of China (USTC) Hefei, China

MSc in Department of Electronic Engineering and Information Science (EEIS) 2014–2016

- Project title: "Deep Learning of ASR for Children's Speech".
- Supervisors: Prof. Ian McLoughlin, Dr Wu Guo, Prof. Li-Rong Dai.
- Weighted Score: 89/100.

University of Science and Technology of China (USTC) Hefei, China

B.S. in Department of EEIS 2010–2014

- Final-year project title: "Natural Language Understanding in a Smart Home".
- GPA: 3.68/4.30, Weighted Score: 86.64/100, Rank: 34/133.

Work Experience

Engineering Department at the University of Cambridge Cambridge, UK

Research Associate Apr. 2021–Current

- Working on Multimodal Video Search by Examples (MVSE) project, funded by EPSRC.
- Worked on the Automated Language Teaching and Assessment (ALTA) project, funded by Cambridge Assessment.
- Exploring mispronunciation detection in spoken language tests.
- Participated in TREC Conversational Assistance Track (CAsT) challenge 2022, which aimed to retrieval relevant responses for a prompt given a conversation, submitted top ranking systems to the challenge.
- Explored speaker diarisation for conversational-style spoken language tests.
- Investigated grammar errors in prompt-response style and conversational style language tests.
- Building language models for conversational speech without in-domain data.

Trinity College Dublin Dublin, Ireland

Part-time Research Associate (remotely), Phonetics and Speech Laboratory May 2020–Current

- Investigating the use of large pretrained models for Irish speech recognition and dialect recognition.
- Working on End-to-End speech recognition for Irish.
- Exploring Irish dialects recognition, created lexicons for the three major dialects of Irish.
- Developing Automatic Speech Recognition systems for Irish, improved system performance from a WER of 61.98% to 14.33%.
- Built a keyword spotting system for a list of Irish vocabulary.

Amazon Development Center Cambridge, UK

Applied Scientist Intern Dec. 2018–Mar. 2019

- Worked on natural language generation and speech synthesis in the TTS Research group.
- Developed a move review generation system which can control the review style both in text generation and in speech synthesis.

Speech Scientist Intern Jul. 2018–Nov. 2018

- Worked on active learning for ASR bootstrapping.
- Proposed novel data selection methods which achieved a relative reduction of 12.3% in WER.

Academic Experience

- **Reviewer**: Regular reviewer for conferences and journals, including:
  - Computer Speech and Language (CSL)
  - ICASSP
  - INTERSPEECH
  - ASRU
- **Organisers** of conferenses, workshops and challenges:
  - Organizing Committee member of SLaTE 2023
  - Organised the 2018 and 2019 Spoken CALL Shared Task challenge
  - Hosted poster sessions in UK Speech 2019
- Presented posters and papers at international conferences: Interspeech, SLaTE, UK Speech.
- Was in charge of the Linux workstation of the Speech Group, Department of EESE, UoB.
- **Teaching Assistant**: From 2016 to 2021, worked as a post-graduate teaching assistant for more than ten undergraduate/postgraduate modules in the School of Engineering, University of Birmingham, the teaching were mostly small group teaching and lab demonstrations, modules include:
  - MSc Introductory Module for Computer/Communications/Power Engineering
  - Fundamentals of Signals and Systems
  - Multimedia Speech, Audio Processing and Music
  - Introduction for Communications and Computers
  - Algorithms and Data Structures
  - Systems Modelling and Management
  - Data Mining
  - Computing for Engineers
  - Engineering Mathematics 1/2
  - Engineering Mathematics 1
  - Foundation Mathematics

Scholarships and Awards

2022 Top ranking systems in the TREC TREC Conversational Assistance Track (CAsT) challenge
2020 4^{th} place in the Shared Task on Automatic Speech Recognition for Non-Native Children's Speech (Interspeech 2020 Special Session).
2018 Been awarded the Interspeech 2018 ISCA Travel Grant.
2017 Won the 1^{st} and 2^{nd} places in the 2017 Spoken CALL Shared Task.
2016 School of Engineering Scholarship, University of Birmingham, UK.
2015 3^{rd} prize of the 10th National Graduate Student Mathematical Contest in modeling, China.
2014 Outstanding Undergraduate Student, USTC, China.
2013 "Sun Guosheng" Leadership Scholarship, USTC, China.

Technical Strengths

Programming (advanced): Python, Perl, C, MATLAB, Shell.
Tools/Software: Kaldi, Fairseq, ESPNET, HTK, MXNet, THEANO, TensorFlow.

Other Activities

2018–Current 1700+ days streak on Duolingo (keeps increasing).
2014–2017 Accomplished half marathon for three times.
2014–2015 Vice chairman of Graduate Students Union, Department of EEIS, USTC.
